

EVOLUTION SERIES

Forge Your Own Path to Profitability

ML MARK ANDY

Adaptability You Need to Succeed

Full Servo Flexo

Evolution Series E5 is a simple-to-operate platform powered by proven Mark Andy Performance Series engineering and technology, providing converters a scalable solution that meets their needs today with a path forward for future adaptability tomorrow.

The Performance You Need, Evolved

Quality

With precise independent inking and impression, robust die cutting options and precision tension control, reliable high-quality label and film production comes standard with Evolution Series E5.

Profitability

Demonstrated registration performance, tangible waste savings and less material ensures a substantial impact to your bottom line.

Productivity

Fast changeovers for print and die stations carry through from the Performance Series to the Evolution Series, reducing downtime and increasing daily capacity limits.

Support

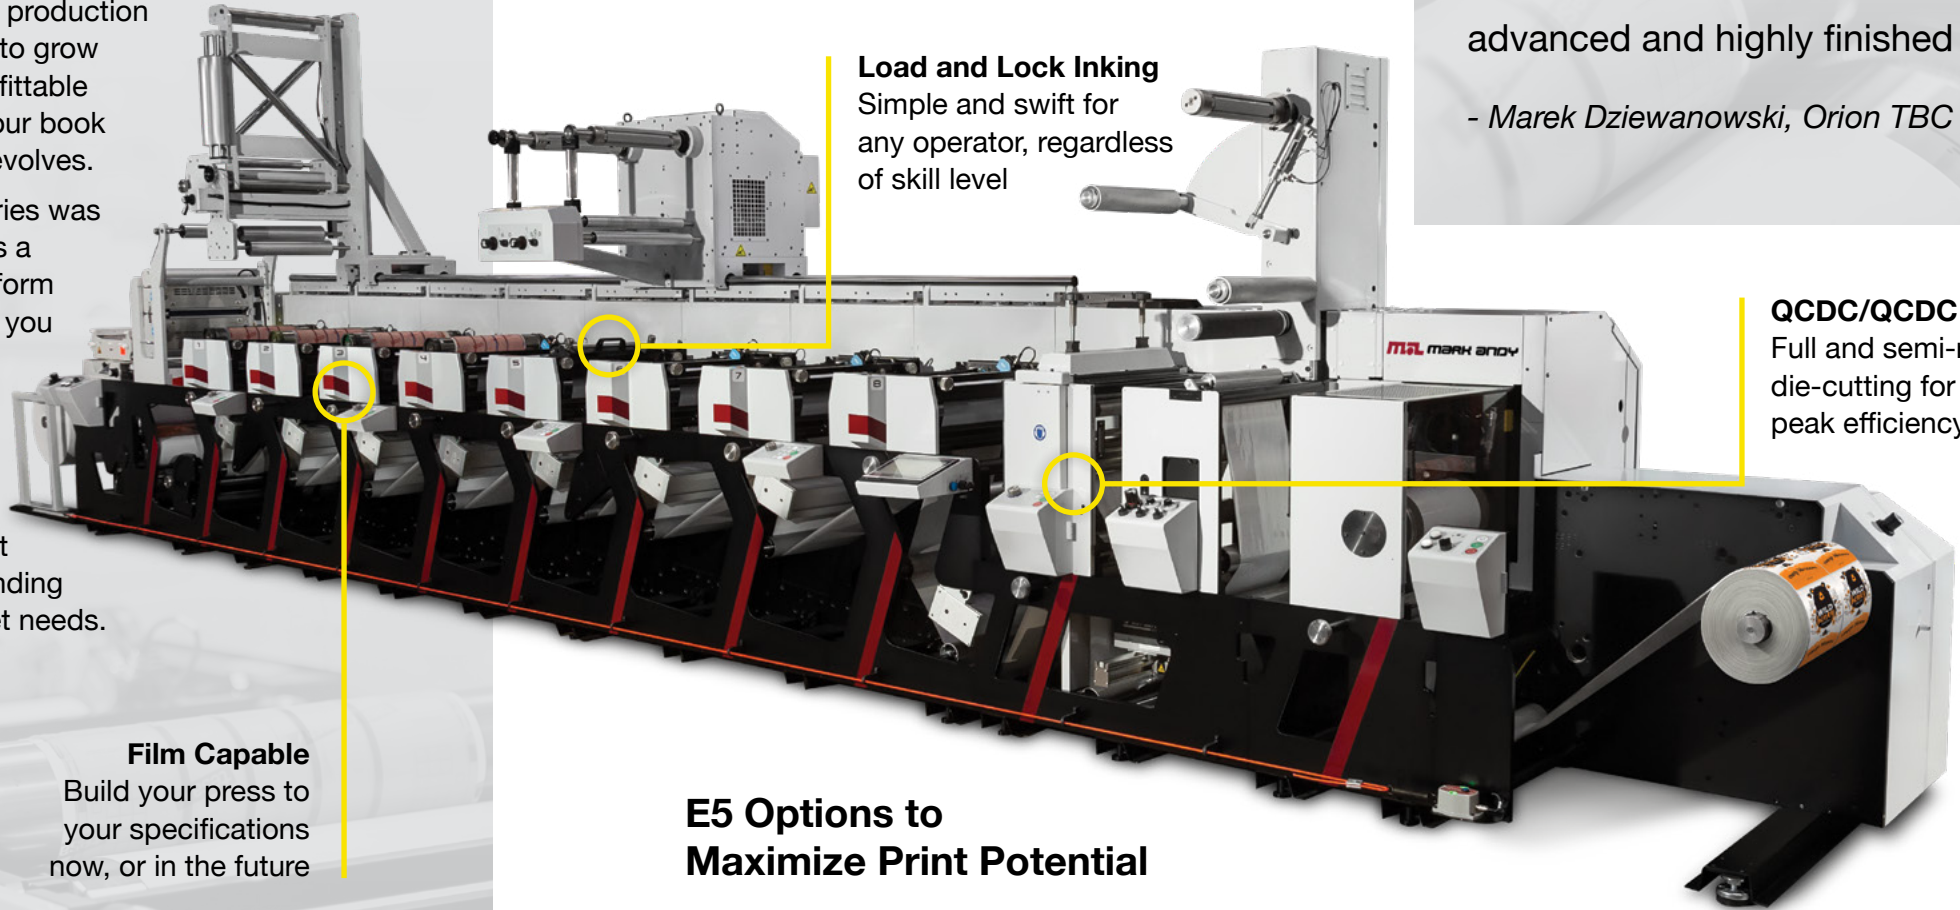

With the largest global service team in the industry, you are supported by Mark Andy to succeed. Beyond technical assistance, we offer our partners business development consulting, application expertise, and all the parts and consumables needed from a true Total Solutions Partner.

Future-Proof Your Business Today and Tomorrow

The Mark Andy Evolution Series is unique in design due to its versatility in scalability. Just as its name suggests, this press is engineered with evolution in mind, built for label production and capable to grow through retrofittable options as your book of business evolves.

Evolution Series was configured as a modular platform which allows you to expand your offer and possibilities accordingly to the highest quality depending on the market needs.

Film Capable
Build your press to your specifications now, or in the future

Built Upon the Award Winning Performance Series Print Station Design
